ARCADE1UP™

1 Download the "Super PacMan Updater" file from the provided link and save the file to your Desktop.

2 After you downloaded the "Super PacMan Updater" you will need to extract the files.

3 We strongly recommend using the native Windows extractor or 7-Zip/WinRAR to unzip(uncompress) your files as some zip tools may lead to complications and extra steps.

4 Right Click on the "Super PacMan Updater.zip" file and select "Extract All"(native Windows Extractor)

5 Right Click on the "Super PacMan Updater.zip" file select "7-Zip" and then select "Extract Files"

1 Now that you have properly extracted the "Super PacMan Updater", it is time to update your Flash Tool drivers.

2 Go to: Desktop > Super PacMan Updater > Driver Updater >DriverInstall.

3 Boot the 🖥 DriverInstall program.

4 If you receive a yellow "User Account Control" popup, select "Yes".

Click Install Driver Button

Install Driver   Uninstall Driver

5 In the RK Driver Assistant window, select "Install Driver".

DriverInstall ✕

Install driver ok.

OK

6 Wait for it to load, then you will see the message"Install driver ok.".

**7** Tap "OK", then proceed to close your RK Driver Assistant.

Open **Super PacMan Updater** Folder

Driver Update

Super PacMan Updater
